Report service	0.19.0 @ 3629c8ca27
Data as of	snapshot 2026-09-14T11:11:06.529345Z (taken 2 min before generation; bindings refresh every 300 s); schema 11
Last poll	2026-09-14T11:11:05Z — ok
Namespaces	off — does not attest absence
User objects	ok
Login capture	ok
History retained since	membership_event: 2026-08-02T04:00:33Z, sync_event: 2026-08-02T04:00:33Z, login_event: 2026-08-07T23:48:59Z
Includes membership rosters	no
Parameters	none
PDF	variant pdf/a-2b; font DejaVu Sans 2.37

Namespaces are known only from observed bindings (rbac.namespaces is off). 'No grants observed' cannot be told from 'namespace never observed', so absence of access is NOT attested.

User objects were read; 'logged in' means a User with an identity exists.

Login attempts are recorded since 2026-08-07T23:47:59Z (last read 2026-09-14T11:11:06Z); nothing before that was ever observed.

Scope: direct bindings only; role rules are not evaluated — this is not an effective-permissions calculation.

Key figures

Directory and users

Synced groups	66
Empty groups	1
Unattributed groups	2
Distinct members	11
Users who have logged in	61
Manual accounts	1
Members added / removed, 30 d	1 / 1

RBAC

Group bindings	201
Namespaces with bindings	110
Dangling	0
Unresolved	6

Unmanaged	4
Direct user grants	10
Platform identity grants (excluded)	37
Privileged group grants	14
Privileged direct grants	1

Access hygiene

Members who never logged in	3
Access outside the login gate	3
Login gate	app-ssb-autobahnusers

Sync pipeline

GroupSync CRs	3

What this evidence attests

Coverage

question	answer
Can it attest that a namespace has NO grants?	no — Namespaces are known only from observed bindings (rbac.namespaces is off). 'No grants observed' cannot be told from 'namespace never observed', so absence of access is NOT attested.
Can it say who has logged in?	yes (User objects with identities)
Can it say WHEN somebody last logged in?	yes — Login attempts are recorded since 2026-08-07T23:47:59Z (last read 2026-09-14T11:11:06Z); nothing before that was ever observed.
Does it evaluate effective permissions?	no — direct bindings only; role rules are not evaluated — this is not an effective-permissions calculation
How far back does membership history go?	2026-08-02T04:00:33Z

Each detailed report in the catalogue expands one row of these figures; this page is the summary and inherits every caveat of the reports it summarises.
